About us...

ZIP Filters is the brand name of Arun Associates for its complete filter line. For more than 43 years, ZIP Filters has been a household name and the most popular aftermarket brand for all cars sold in India. Since our foundation in 1975 we have been providing the optimum filtration solutions to protect equipment, engines, people and the environment. Arun Associates, having fully equipped setup to cater the demand for filters of different shapes, profiles and applications. Arun Associates manufactures a wide range of products for the various applications. We provide the best oil, petrol, diesel, air and cabin filtration solutions to protect engines and reduce fuel consumption. With more than 1800 references, Arun Associates is the largest and most complete filter supplier for Indian cars.

A filter is one of the first parts that needs to be replaced in a car. Soot, metal particles and other harmful substances that are formed during the combustion process, but also sand and dust particles from the air, are disastrous for the engine. Dirty air, pollen and exhaust fumes can have harmful effects on the driver and passengers. An excellent quality filter is therefore necessary for maintaining both the engine and health. Zip Filters are manufactured to meet or exceed original equipment (OEM) specifications. Through a number of technological advances, we have pioneered increasingly better methods to prevent harmful contaminants. All of our filters incorporate advanced filtration technology to deliver superior filtering characteristics while delivering cost savings benefits to our customers and they are manufactured in strict accordance with the ISO 9001 Quality Management System

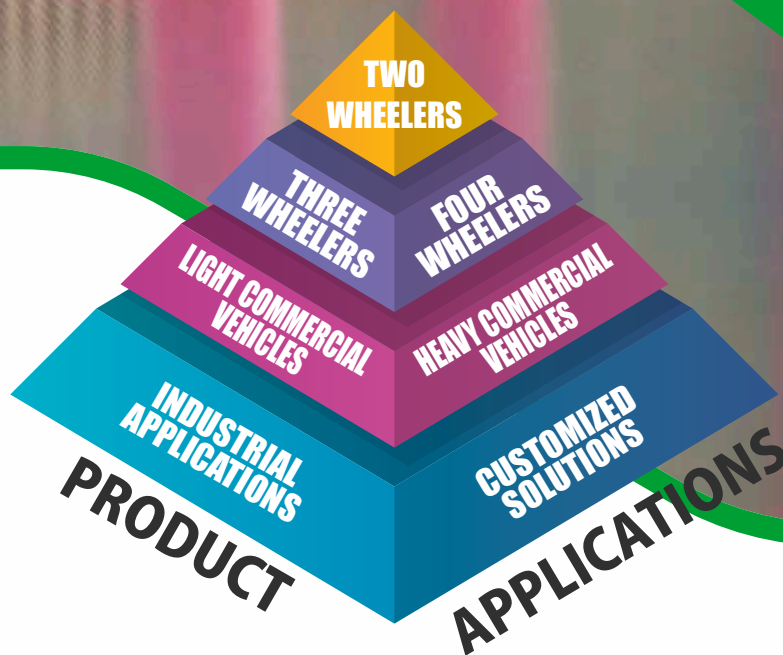

“Our vision is to become synonymous with filtration solution.”
